British-Israel Members Hear Colonel Pringle

Gave Interesting Story of Egyptian Expeditionary Force in Palestine — Prophecies Fulfilled, He Claims.

Colonel Pringle, provincial secretary of British Columbia for the British-Israel World Federation, gave a most interesting address last evening to the local branch in St. Paul's church. He outlined the operations of the Egyptian Expeditionary Force during the Great War, in which he took part, showing by a map the territory covered, and explained in graphic style the almost insurmountable difficulties contended with in ousting the Turks from around Jerusalem and finally their complete defeat in Palestine.

Troops from all corners of the British Empire were employed in these operations, and he claimed that the deliverance of the Holy City from the hands of the Turks fulfilled prophecies of Jeremiah of the Old Testament. British-Israel, represented by the Empire, was the deliverer.

Colonel Pringle in the question period following his address, stated that the Jews were not God's chosen people, as most people seem to think, and that Jesus Christ was not a Jew, but a descendant of the House of David. The Jews had been scattered to the four corners of the earth, and their history as a race of people during the centuries proved they were not the elect of God, but fulfillment of prophecies and development of world events proved that British-Israel was the chosen people of God.

One age had come to a finish with the deliverance of Jerusalem and Palestine, and another age is about to commence.

Colonel Pringle was thanked for his address by Mayor Pattinson, as chairman, and the benediction was pronounced by Rev. A. S. Partington. The local branch extend a cordial invitation to all to attend their meeting next Friday evening, when Mr. Ashley-Cooper of Vancouver will give another interesting address. There is no admission charge, but a collection is taken to defray expenses.

PUBLICATION DAY

is not the only day in which a weekly newspaper works. It takes far more than a rush day to get out a paper worth while. For that reason we appreciate the co-operation of advertisers in getting copy in as early in the week as possible. It enables us to give more careful attention to setting up the ads, so they will be more effective. Will advertisers kindly remember this, also that a little time spent in thoughtfully planning a weekly advertisement stands a much better chance of winning popular attention than if little care is given to it.

Jones Wins Over Gatzke in Fifth Round

Plenty of Action in Which Jones Displays Superiority—Bert Garrett Took Count.

Thrills aplenty were given out in large doses when Frank Barrington's professional boxers went into action on Monday evening. Pile hammer blows, bone crushing punches, groggy men, technical knock-outs and a boxer knocked out for the count of ten were seen as the card progressed.

The main bout saw a master boxer give a willing but unscientific slugging a terrific beating when Gentleman Jack Jones of Blairmore won on a technical knock-out in the fifth round from Russell Gatzke. Jones in perfect physical condition was much too good for Gatzke, who fights in a crouched up manner, and with the exception of the third round had the fight in command all the way.

Gatzke opened up at the start of the first round and by his rushing style and wild swinging punches caused Jones to back pedal most of the round. Jones coming in occasionally to feel his man out. Round even.

Jones opened up to some extent in the second round and both boxers stood slugging toe to toe as the crowd rose to its feet with a roar. Jones continued to land more solid blows and won the round with a slight edge.

Gatzke's rushing style and swinging blows started to connect in the third and Jones seemed to become enraged as he was swept around the ring. As Gatzke connected on several occasions Jones endeavored to clinch as much as possible. Gatzke's round.

Jones really went to work in the fourth round and it wasn't long before he nailed Gatzke alongside the ropes and twice brought Gatzke to his knees. Jones' round. Gatzke's seconds worked frantically over him during the recess.

Jones rushed out of his corner at the going of fifth round and caught Gatzke several hard rights and lefts. Gatzke was groggy as Jones beat him unmercifully, causing Referee Bill Burrows to step in and award the fight to Jones on a technical knock out.

The semi wind up between Bert Garrett of Coleman and Baby Dempsey of St. Thomas Ont., for five two minute rounds was as fast before youth. Garrett fought gamely against a faster opponent in the first round, but his blows seemed to lack the force of Dempsey's. Dempsey put plenty of power behind his blows falling to the floor on one occasion when he missed with a wild round house. Garrett was a little dizzy in the first.

(Continued on Page 4)

Remembrance Day

Monday, November 11th, 1935

On armistice day we will again think of the unforgettable dead. These men thought they were laying down their prospects of happy home experiences with the sweethearts of their youth that democracy might live.

We will also think of those who still battle for existence in our hospitals.

For the former we can do nothing. For the latter we can co-operate with any endeavor that will add to their comfort.

But the appreciation of a grateful nation should not end with thoughts of the dead and maimed.

In hamlet, village and city are the living millions who went forth to meet the foe. Some volunteered their services. Others were told to go. But the definite fact is that they put their bodies between their homeland and the horrors of war. They faced and felt those horrors.

On Armistice Day a mighty nation pauses and without personally embarrassing makes recognition of the fact that the living veterans of foreign wars stood ready to give their all to keep the scourge from directly blighting their land and our land.

Funeral of Mrs. Hopkins

Funeral services for Mrs. John Hopkins, who died on Oct. 30, were held in St. Alban's church on Sunday, the Rev. A. S. Partington conducting the beautiful funeral service of the Church of England. The service was choral, and the church was filled with friends of the family and members of the Welsh society. Pall bearers were Edgar Thomas, T. Lloyd, W.J. Haysom, J. Richards, Fred Fisher and G. Morgan, old-time residents of Coleman. Burial took place in the Union cemetery, funeral arrangements being in charge of A. E. Ferguson of Crows Nest Undertaking Parlor.

Card of Thanks

Mr. John Hopkins and family thank their many friends and neighbors for their sympathy and floral offerings in the loss of a beloved wife and mother; also thanks are extended to the hospital staff and those who loaned cars for the funeral. 32 1c

Junior Hockey Club Organizes

Alex. Cornett Elected President at Well Attended Meeting

Organization of the junior hockey club was attended by a large and enthusiastic group of boys in the council chambers on Wednesday evening. Officials elected were: Geo. Kellock, honorary president; L. Lindoe, honorary vice-president; A. Cornett, president; J. S. D'Appolonia, vice president; A. Balloch, secretary; executive, Messrs Joe Kwanle, Wm. Roughhead, and A. Gentile. A. Gentile, manager; R. Kwanle, coach; E. Woods and J. R. Atkinson, trainers.

In order to raise funds for equipment it has been decided to raffie a 1935 cabinet radio. The club will be known as the Coleman Tigers and will affiliate with the A. H. Assoc. Games will be arranged with other Pass junior teams and a banner year in the realm of junior hockey is anticipated.

Folks like to get the home news of Coleman through The Journal. Challis Racott writes from Blair Rifle Range, Northlands, B. C. enclosing his subscription.

Peculiar Case Under Investigation

Mounted police recently took in charge a man found near Lundbreck, apparently suffering from having taken a dose of poison, and in a soaked condition indicating he had probably been in the river. The man it is reported lives in Blairmore, and is being kept under observation as to his mental condition. It is supposed he took an overdose of the poison. No further details have been given out by the police.

Died From Burns in House Fire

A Bellevue resident while out playing cards at a neighbor's house, decided he would return to see how the fire was in his own home, during the cold spell of last week. He found the place on fire, and in attempting to remove a gasoline stove, which became ignited, he was so badly burned that he died on Saturday, Nov. 2.

Girl Guides will meet at 9.15 a.m. Monday at the parish hall to parade to the Community hall for the memorial service. Boy Scouts will parade under Scoutmaster Reg. Jones; ex-service men at the council chamber. Parade to be headed by the band.

Capt. R. E. Donkin, reeve of Frank, extends an invitation to all to attend the centenary service at Frank on Monday. Announcement concerning transportation will be made at Coleman service, opening at 10 a.m.

Coleman Arena Leased to Easton-Jenkins

Plan Improvements in Service. Mild Weather Delays Ice Making This Week.

Coleman Rink Co. at a meeting on Monday leased the rink to Alex. Easton and W. Jenkins, who have already commenced getting ice ready and fixing up waiting rooms and other conveniences for skaters.

It is their intention to make the place as attractive as possible and they will operate a refreshment stand. Season tickets are being sold, which will be an advantage over the former system of selling individual admission tickets, the new lessees consider. They state liberal terms will be accorded juvenile hockey teams for practicing.

The new lessees will also have charge of the curling rinks.

All Kinds of Rackets

A man who recently sold artificial flowers from house to house in the Pass towns, was arrested by the mounted police on a charge of having a stolen car in his possession. His story was that he had borrowed the car from a friend in Saskatchewan but overlooked returning it. To Coleman housewives he told a story of having been a "yodeling cowboy," and he was trying to get sufficient money to buy a new artificial limb.

"SALUDA" TEA

To Settle An Issue

There are few people in Western Canada, and in the east as well for that matter, who will not follow with lively interest the proceedings before the Royal Commission appointed by the Saskatchewan Government to inquire into all the circumstances surrounding the "On to Ottawa" trek of relief camp strikers which started out from Vancouver this summer and culminated in the Dominion Day rioting in Regina, in which a city police detective lost his life and scores were injured.

The inquiry, which is to be held in Regina may be regarded as an event of major importance to the whole country, in view of the fact that charges have been made public that the purpose and intent of the movement was to upset the constituted government of Canada and to impose on the country a government by unlawful means.

This has been denied by the strikers' leaders, who have insistently declared that their purpose was peaceful and inspired only with the desire to draw their grievances to the attention of the Federal government and the people in the hope that by this means these grievances would be remedied. Which is correct, the charge or the denial, the people at large have no means of knowing at the present time, but it is sincerely to be hoped that sufficient evidence will be brought before the Commission to settle the question definitely one way or the other.

The charge, of course, is a serious one, since, if true, it involves a serious threat to the democratic form of government which has been bequeathed to the people of Canada and has been carefully fostered and cherished by them since Confederation. The whole trend of the history of the country since that date has been to bulwark and strengthen that form of government which decrees that at periodic intervals the people of the country shall decide by their ballots at the polls what administrative policies they desire.

On the other hand, if there is no truth in the charge, the public is entitled to know it. During their advance through the provinces of British Columbia, Alberta and Saskatchewan as far as Regina, the young men making their way towards Ottawa gained a measure of sympathy and support from a section of the public.

Those who assisted the lads on their trip to the capital in the belief that it was a peaceful delegation to supplicate the government to terminate certain grievances, whether those grievances were real or fancied, will want to know whether their confidence was misplaced or not.

Those young men who joined the movement in a spirit of youthful adventure as the strikers progressed through the western provinces, and as alleged many of them did on the assumption that it was a peaceful and law-abiding pilgrimage, will also want to know whether they were bound on an innocent quest or were unwitting and pliable tools in the hands of a menacing leadership, as has also been alleged.

These are matters which should be cleared up definitely and finally for the sake of the peace of mind of the public generally and for the information of participants in the march and of those who sympathized with them and aided them.

There is only one way, however, for these questions to be definitely determined and that is by all those who have specific information on the movement and its motives to come forward and offer their testimony without fear of favoritism or persecution, no matter what it may be, provided it is reliable, will, it is safe to say, be welcomed by the Commission and the public.

It must be borne in mind that the Commission is purely a fact-finding body. It is not charged with the duty of drawing conclusions from the evidence adduced, or of making recommendations as a result of the information it receives.

The Commission's duties are confined to bringing out whatever facts they and their counsel may be able to secure and, while, no doubt, every effort will be made to gain as much information as possible, the value of the Commission's work to the public will be limited to the extent that such information is made available.

If those who have important information on the subject matter of the inquiry, neglect to bring it to the Commission's attention, to that extent the investigation will necessarily fail to fulfill its full purpose and to that degree the inquiry will be disappointing.

No matter how economically handled a Royal Commission inquiry is bound to involve considerable expenditure and it is to be hoped that those who have information of value will submit it and help the public to secure a good return for the expense entailed.

Prime Minister Joseph G. Coates announced completion of arrangements with Pan American Airways for service between the United States and New Zealand. The service is understood to be scheduled for initiation next August with flying boats.

The Aztecs used chocolate beans for money, and only the upper classes were permitted to drink chocolate.

There are said to be 1,110 different kinds of animals and insects in the world, with thousands of varieties of each, including 120,000 types of spiders, 50,000 types of butterflies and 40,000 types of flies.

"Ramono Lal," the gypsies' own newspaper, has attracted subscriptions from all parts of the world since the first issue appeared recently in Belgrade, Yugoslavia.

Triumph For Science

Milk Dead Cow With The Aid Of

Mechanical Heart
By means of an artificial heart the udder of a dead cow has been made to give milk, Dr. W. E. Petersen, University of Minnesota scientist, disclosed recently.

Dr. Petersen devised the artificial heart to aid him in studying the fat content of milk.

He said it led to a new and better test for butter fat. The new test is known as the Minnesota Babcock butter fat test, a refinement of the Babcock method, the scientist asserted. It enables creamery testers to obtain more accurate results.

Dr. Petersen said on one occasion he kept an udder "alive" for 15 hours, and milked it five times during that period. This was accomplished by means of a mechanical heart, which pumped blood through the gland by means of the mechanical heart and utilizing the animal's lung.

The lung also was kept active for the same length of time as the udder, he said. Both were affixed to the mechanical heart.

The mechanical heart is a revolving disc with an iron arm on each side. The arms are parallel but just out from the disc at different levels. As the disc revolves, propelled by an electric motor, the arms press rubber tubes through which the blood flows.

This gives the same pulsating effect as the heart in a living body, Dr. Petersen said. At first efforts were made to keep the udder alive merely with the mechanical heart but the attempts were unsuccessful because the blood deteriorated from lack of oxygen.

Dr. Petersen then added a lung taken from a freshly slaughtered cow. It was inflated and deflated by an automatic air hose. Before the lung was used the blood returning from the udder would be almost black, he said. When it was circulated through the lung it came out a normal color.

To keep it at body temperature, the blood is passed through a glass coil immersed in warm water. Thirteen pounds of blood are used.

Illuminated Highways

Cars Without Lights—Traffic Signals

Received By Radio

Illuminated roads, on which motor car lights would be unnecessary, were envisaged by A. T. V. Robinson, deputy secretary of the ministry of transport, at a combined session of the engineering and psychology sections of the British Association, which mainly dealt with road traffic problems.

"It may be that within the next decade, on all the more intensely trafficked roads, the approaching driver will see an oncoming vehicle, not as a couple of spots of dazzling light with a black background, but as a dark silhouette against an adequately illuminated background," he said.

The advances of recent years were still all dependent for their efficacy upon their visual perception by the driver of a road vehicle and his readiness to respond.

"The road driver of the future may hear traffic signals on his car radio set," said Mr. Robinson.

A careful driver approached a railroad, he stopped, looked and listened. All he heard was the car behind him crashing into his gas-tank.

The term mandarin is applied in China by foreigners to government officials of every grade.

Extensive Travelling

Journalist Covers 1,250,000 Miles,

Always Going Eastward

A man has come to Durban, Natal, who is 22 days younger than any man of his age in the world. He is Mr. M. Franklin Kline. Eleven years ago he set his face to the sun and he has travelled towards it ever since, constantly keeping first the Northern and then the Southern Hemisphere every year. He has thus been round the world 22 times in 11 years, and, as he has always travelled east, 22 days have been clipped off his life. "I've travelled 1,250,000 miles in my life, always east," he said, "and have never grown tired of it. There are too many interesting things to see. Anyway, I guess I'm wound up now and can't stop. I'm the editor and compiler of the official guide for shipping and travellers to the principal ports of the world, which is published by the Osaka Shosen Kaisha Company, Japan. I visit all the big ports of the world every year, meet the heads of business firms and interview them. I spend all my time in ships, writing and compiling my guidebook, which is published every year. I was born in Tennessee. I came to South Africa in 1904 and found a job in the mines. When the Zulu rebellion broke out in 1905, I joined up with the Transvaal volunteers. It used to be called fighting in 'thousand days.' My life became a journalist after the rebellion, and when in Japan he conceived the idea of issuing a shipping guide-book as a means of travelling round the world. This was so successful that he has continued travelling ever since.

Requests For Dionne Bowls

Premiums Have Been Given To People All Across Canada

That the Dionne quintuplets are very dear to the hearts of the people of Canada is amply demonstrated in the tremendous demands for the "Quint" souvenir bowls being given away as premiums in connection with Quaker Oats. Although the premium offer was first made only a comparatively short time ago, already literally thousands upon thousands of requests for the bowls have been received from families all over the Dominion. Requests for premiums, according to The Quaker Oats Company, have been received in every walk of life, high and low, and from both men and women, as well as children.

The premium offer of chromium bowls bearing a reproduction of the heads of the five famous babies in illustration on the bottom, and their names carved around the rim, is being made to mark the fact that Quaker Oats was chosen by the best food experts in the country as the breakfast cereal for the children. The "Quint" bowls have been bearing Quaker Oats regularly since their very earliest months.

Quaker Oats was chosen because of its remarkable richness in Vitamin B. Food editors of leading publications are constantly printing articles stressing the importance of this vitamin. They also recommend oatmeal because of its abundance of body-building minerals, muscle-building protein, and energy-making carbohydrates. So the "Quint" get-bowls of Quaker Oats.

FROM GIRL TO WOMAN

Mrs. N. Verry of 47 Bunting St., said: "When I was a girl, I suffered from indigestion and I suffered terrible pain. I stayed in bed for several weeks. I was soon corrected after I started on 'Fennel Prescription.'"

All druggists. Price, 50c. Large size, \$1.00. For free medical advice, write to: Fennel Prescription, 1111, Clinch, Buffalo, N. Y.

Flying Torpedo Boats

War Instrument Capable Of Sinking

Biggest Battleship Afloat

Just as Germany started the naval world in 1930 with "vest-pocket" cruisers, she has again, after five years of intensive experiments, sprung a new surprise in vest-pocket torpedo boats—variously called death boats or flying torpedo boats because of their tremendous speed and flexibility. Carrying two torpedo tubes and capable of sinking the biggest battleship afloat, these "mosquito boats" of 200-ton size reach a speed of 65 miles an hour. For defence against the giants of other navies, they rely on this terrific speed, not armament, as they dart forward under cover of smoke screens, the technique demonstrated at the Baltic maneuvers.

Early erroneous reports claimed that the vest-pocket torpedo boats were manned by a crew of only five men, a "suicide crew" whose object in war would be simply to drive their little craft, loaded with explosive, straight into enemy battleships, taking their chance to survive by leaping overboard at the last minute. The United Press ascertained that the crews actually number 22, eight on deck, eight in the engine rooms and six officers.

Japan has not yet introduced chain drug stores. 2123

Here We Are Again!

Yes!... wise "roll-your-owners" are back again with Ogden's Fine Cut. Why not do the same and smoke the best there is, when it costs so little!

HOME FROCK ASSUMES TAILOR-ED SMARTNESS—HAS THAT ORDERLY LOOK—SUCH AN ASSET IN ONE'S HOME WEAR

By Eileen Worth

It's a charming model for matrons as well as smart youthful types. There's a slimming center seam that plait at the front of the skirt and darts at the back, which cuts undue breadth and at same time, gives the figure a lovely tail appearance.

See for yourself how utterly simple it is to make it.

A pretty dark cotton print made the mode in pictures, which cuts wide mediums and tub beautifully, while rayons in necktie patterns, are also excellent.

Style No. 497 is designed for sizes 14, 16, 18 years, 36, 38 and 40-inches bust. Size 16 requires 3 1/2 yards of 35-inch material for dress with either sleeve.

Patterns 15c each. Address mail orders to: Pattern Department, Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

Let the new Fall and Winter Fashion Magazine assist you in assembling your family's fall clothes. There are designs for every type and every occasion. And of course one of our perfect-fitting patterns is obtainable for every design illustrated. Don't delay! Send for your copy to-day!

Grasshopper Menace

Infestation For 1936 Believed To Be

Higher In Manitoba

Indications of grasshopper infestation for 1936 are much lighter than for many years, Dr. R. D. Bird of the Dominion entomological laboratory, Brandon, Man., told the Manitoba grasshopper control committee in Winnipeg.

The areas of heaviest infestation, according to indications of egg deposits in the soil, are in patches south and southeast of Winnipeg, said Dr. Bird, who has just completed a survey of egg beds. Lighter infestation is indicated over a wide section of the southwestern part of Manitoba.

Cut poppies keep beat if floated on lukewarm water.

Prominent Writer Dies

Frank Leigh Was Authority On Canadian Affairs

Widely known as a lecturer, writer and authority on Canadian affairs, Frank Leigh, 75, died in Toronto after a brief illness.

He was born in Burford, Ont., and was educated at the public school there. After a period of secretarial and publishing training in Chicago he came here in the late 70's and became secretary to Hon. A. S. Hardy, first provincial secretary and later Ontario premier.

Later he became editor of the weekly newspaper, Canadian Advance. He married Kate Westlake, author of "A Specimen Spinster," in 1902. She died in 1906.

In 1908 he married Annie Louise Laird, daughter of Rev. Robert Laird, of Kingston. He travelled through the British Isles and Europe in succeeding years and in 1920 became Canadian representative of the Save the Children Fund, an international organization sponsored by the League of Nations aimed at relieving distress among women and children.

"WOULD NOT BE WITHOUT SASKAL"

SAYS REGINA WOMAN

Indigestion Gone, Can Eat Anything

Read this letter: "For several years I had been troubled with indigestion and could eat very few foods which agreed with me. A friend of mine suggested that I try Saskal, which I did, and it has entirely relieved me and now I can eat anything. I would not be without a bottle of Saskal in my home, and I hope others may benefit as I have done when they know of your remedy in Saskal." For indigestion, biliousness, and acidity of the blood take Saskal. At all drug counters. Enough for 10 weeks' treatment, 60c.

The department of labor, made public the finding of Justice H. H. Davis of the supreme court of Canada blaming longshoremen for the waterfront dispute which has been in progress at Vancouver since last June 5.

The corn borer is able to subsist upon all herbaceous plants and has already been recorded as feeding upon no less than 167 kinds of plants in the United States.

ESPECIALLY ECONOMICAL FOR BAKING

Brilliant Ceremony Marks Inauguration Of Lord Tweedsmuir

Quebec.—Fifteenth governor-general of Canada since Confederation, Lord Tweedsmuir, statesman, soldier and author, was sworn into office here in a dazzlingly brilliant ceremony which inaugurated a regime that will continue for the next five years. The legislative council chamber, which has furnished the setting for many such functions, presented an appropriate setting for the event.

In the presence of high dignitaries of the country, His Excellency swore fidelity and allegiance to King George, that he would "well and truly serve His Majesty in the office of governor-general and commander-in-chief of the Dominion and that he would 'duly and impartially administer justice,' and that he would serve the king as keeper of the great seal.

Seated on the throne beneath Charles Huot's famous canopy which adorns the whole length of the chamber wall, His Excellency, garbed in brilliant uniform whose silver epaulettes and riband of the Order of St. Michael and St. George sparkled in the flash of the piercing klieg lights that played upon him, heard himself praised by Prime Minister W. L. Mackenzie King as a man of high courage and loyal idealism. On behalf of Canada the prime minister extended to His Excellency and Lady Tweedsmuir "the warmest welcomes." "It is a delight to us to welcome in Canada's newly-appointed governor-general," said Mr. King, "one who is already well and widely known throughout our Dominion, and one who is the personal friend or acquaintance of a very large number of its citizens." In reply His Excellency brought "a message of admiration and confidence—admiration for what the people of Canada have done, and confidence in what they will still do."

Doctor Was Lucky

Wins Sweepstake Prize, But Will Continue With His Practice
Toronto.—Good fortune which came to Dr. Herbert H. Murray by holding an Irish hospitals sweepstake ticket on Pinatist, third in the Cambridgebridge stakes at Newmarket, England, will not change the physician's plans, he said. The ticket, half of which he had sold, was worth about \$49,100. "My job is taking care of sick people," he said, adding that now he had "a little money" he would not have to press his poorer patients for payment.

Ask For New Tax Deal

Edmonton.—Proposed conference between the provincial government and Alberta cities, at which the latter will ask for a new deal in taxation and responsibility for social services, will have to stand over until the provincial-federal conference at Ottawa, Premier Aberhart told Mayor Clark.

Bank Deposits Up

Ottawa.—The weekly statement of the Bank of Canada for the week ending Oct. 30 showed an increase of \$2,479,805 in Dominion government deposits, while deposits by chartered banks were up \$3,847,694.

Says Italy The Aggressor

Co-Author 'Of Kellogg-Briand Pact

St. Paul, Minn.—Frank Kellogg, former secretary of state and co-author of the Kellogg-Briand pact declared that "the United States in common with other countries can and should designate Italy as the aggressor in its flagrant violation of the sovereignty of another nation."

He added the United States should "denounce Italy's violation" of its treaty obligations and announce that it will take no step to interfere with or nullify the measures that other nations are now taking to put a stop to this war.

"What some of the American people seem to have forgotten and what the Italian people or their government seem to have entirely ignored," Kellogg said, "is that when Italy invaded Ethiopia and thus violated the supreme law of our land." He referred to the Kellogg-Briand pact.

Kellogg expressed the hope that "those who are considering trading with Italy . . . will have it borne home to them constantly that in supplying oil, cotton or machinery they are aiding and abetting a nation that is treating a solemn treaty as a scrap of paper."

Alberta Liquor Prices

Increases Are Announced To Go Into Effect At Once

Edmonton.—With increases up to 25 cents on a 26-ounce bottle of scotch, 20 cents a similar bottle of rye, 20 cents on imported gin, 10 cents on Canadian gin, 25 cents on the more costly liquors and five cents on a dozen pints of beer, new prices at Alberta vendors' stores will go into effect, it was announced.

The new list includes the notation in red ink: "Prices quoted in this list include an assessment for relief purposes."

The new list, however, shows steep reductions in the price of brandy imported in the bottle. One brand drops from \$4.00 for a 26-ounce bottle to \$3.30. Another brand shows a reduction from \$5.65 to \$5.10.

Increases in the price of wines run from five to 10 cents a bottle.

The increases go into effect following an announcement by Premier Aberhart that he hoped to raise \$300,000 by this method.

Woman Senator Injured

Senator Falls In Hospital With Broken Wrist

Ottawa.—Senator Eva Fallick of Peterborough, Ont., second woman member of Canada's upper chamber, has been in hospital since Oct. 18, suffering from a broken wrist and a foot injury.

Dr. Stanley F. Service, her physician, said she was not seriously hurt, that she had broken only one bone in her wrist and a bone in her right foot. He said she slipped off the curb and fell.

Ontario Hotels Closed

Charged With Being Connected With

Brewing Corporation
Toronto.—Beverage-room doors of 19 Ontario hotels, charged with being directly connected with Brewing Corporation of Canada affiliates, were closed on the order of Premier Mitchell Hepburn. Beer and wine sale authorities were suspended.

Mr. Hepburn's order was issued following a meeting of the cabinet which considered a report of liquor commissioner Edmund G. Odette. The commissioner and officials of his department opened an investigation into alleged "tied" hotels two weeks ago.

Fourteen of the affected hotels operate in Toronto and the remaining five in other parts of the province.

The premier, announcing the cabinet's decision, said the operation of the hotels was definitely linked through Mohawk Investments, Ltd., with breweries that were affiliated with Brewing Corporation of Canada. Suspensions will remain in force, he said, until such time as the hotels involved are sold or otherwise disposed of and new managements, satisfactory to the liquor commission, are established. He said the new managements must not be connected in any way, directly or indirectly, with the brewing trade.

Test Validity Of Laws

Social Legislation To Be Submitted To Supreme Court

Ottawa.—Social legislation passed at the last session of parliament will be submitted to the supreme court of Canada for a decision as to its constitutional validity. Prime Minister Mackenzie King stated recently. An effort will be made to have the court's decision on these matters ready for presentation to the Dominion-provincial conference which Mr. King hopes to have late in November.

Mr. King did not give any detail as to the particular statutes to be submitted to the supreme court but it is assumed they will include those dealing with the minimum wage, minimum hours of labor, one day of rest in seven and the unemployment insurance act, most of which, while supported by the opposition were challenged by them on constitutional grounds.

Quebec Elections

Voting To Take Place On November 25th

Quebec.—Quebec's 18th legislature was dissolved and Nov. 25 was set for the provincial elections. Premier Taschereau made the announcement following a cabinet meeting.

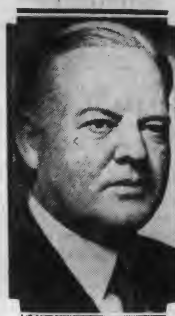

The last general elections in Quebec were held Aug. 24, 1931, and Premier Taschereau might have waited until next year, if he so desired, before holding another.

Premier Taschereau has headed the government since 1920 when he took the Liberal leadership following the retirement of Sir Lomer Gouin. The Liberal party has been in power since 1937.

Toronto Tunnel

Ottawa.—Suspension of work on the \$1,000,000 Toronto Island tunnel project while it is reviewed by the Dominion government is "part of a general policy of retrenchment where we can make it," Hon. P. J. C. Carlin, minister of public works, said. The government will proceed without delay to look into the project.

SEEKS PRESIDENCY

Herbert Hoover, former President of the United States, is reported to be preparing to enter the forthcoming Presidential contest in the hope of defeating President Roosevelt.

Performs Before Royalty

Eccentric Dancing Of U.S. Comedian

London.—The eccentric dancing of Will Mahoney, United States comedian, entertained the king and queen and the rest of the audience at the royal command performance in the Palladium.

The king looked remarkably well all through the act and applauded as the American took a number of curtain calls. Mahoney topped his antics by playing the xylophone with his feet.

Queen Mary wore a pale green gown, ornamented with large paillettes, a cloak of pale green satin and a diamond tiara with a magnificent emerald in the centre.

Will Take Holiday

Former Prime Minister Bennett To Take Much Needed Rest

Ottawa.—Former Prime Minister Bennett who resigned with his government on October 23 will leave Ottawa this week for an extended holiday, the first he has taken voluntarily in more than five years.

Mr. Bennett will go first to Calgary where he represents the constituency of Calgary West and secondly to his legal labors for more than 30 years. His plans thereafter have not been announced but it is understood he will journey to some warmer climate for the early winter, prior to assuming his duties as leader of the opposition in the House of Commons.

Floods In Honduras

115 Lives Lost And Great Property Damage

Tegucigalpa, Honduras.—Floods sweeping Honduras had taken a known death toll of 115 lives and unofficial estimates of the damage reached more than \$12,000,000.

Hundreds of Americans live in the flooded area, but none was known to have drowned.

As the swollen streams spread far beyond their banks in what officials believed to be the worst flood in the history of Honduras, the towns of Maratita and San Pedro Jula reported strong earth shocks were felt.

Losses were estimated at more than \$7,000,000.

THE MAN BEHIND THE SCENES

Very few Canadians have heard of Colonel Sir Robert A. Johnson, K.B.E., and in fact he is unknown to the average Britisher, yet he holds one of the most important posts in London. Sir Robert is Deputy Master and Controller of the Royal Mint and the engraving of His Majesty's Seal. Here we see him in his office at the Mint.

Federal Government Bond Issues To Be Offered To Investors

Wheat Situation

Denial Of Rumors That Government

Will Sell At Sacrifice Prices

Ottawa.—Denial of rumors the government intended to force Canadian wheat on the markets even at sacrifice prices followed the first meeting of the cabinet committee to deal with the wheat situation.

Hon. W. D. Egan, minister of trade and commerce and chairman of the wheat committee, issued the following statement: "There are rumors abroad the government intends to direct that the western wheat now held by the wheat board be sold, even at sacrifice prices. The rumors are entirely without foundation. Under the law the board headed by Mr. McFarland (John I. McFarland) has full authority with regard to the selling policy."

Members of the committee which in addition to Mr. Egan, include Finance Minister Dunning and Hon. James Gardiner, minister of agriculture, declined to amplify the statement. It is believed the denial was prompted by representations from Winnipeg to the committee that the uncertainty of the situation was having a depressing effect on the market.

Chinese Premier Shot

Seriously Wounded At The Hands

Of An Assassin

Nanking, China.—A Chinese assassin shot Premier Wang Ching Wei and three other officials and was shot and killed a few moments later in the resulting confusion.

The 50-year-old premier and his right-hand man, Tseng Chun Min, vice-minister for railways, were seriously wounded.

The other two men wounded were Chang Chi, former president of the judicial Yuan, and Kan Hai Kuang, chief of the political bureau of generalissimo Chiang Kai-Shek's headquarters and vice-minister of the interior.

A Rengo (Japanese) News Agency dispatch said martial law had been proclaimed in the city, and identified the assassin as a member of the central executive committee of the Kuomintang Nationalist party.

There were reports that in the confusion following the shooting, a group of civilians engaged in a gun fight with police.

Wins Judging Prize

Miss Swift, Of Viking, Captures First Place In Contest

Edmonton.—Capturing first place for judging of commercial hogs and third prize in sheep judging, Miss Alice Swift, Viking, was awarded a special prize for the highest number of points in the junior judging classes at the Edmonton exhibition annual fall swine and sheep show.

Miss Swift also won the lamb trimming contest in competition with six others.

Ottawa.—A \$75,000,000 Dominion government bond issue will be offered to Canadian investors. Finance Minister Charles Dunning announced.

The money will be used for general purposes and the bonds will be in two maturities, four and 19½ years, at two and three per cent. respectively.

This will be the first major financial operation of the new government, the only other loans negotiated since Prime Minister Mackenzie King formed his third administration Oct. 23 being some short term treasury notes. It will be new money and will not be used for refunding.

The four-year, two per cent. bonds, maturing Nov. 15, 1939, will be offered at 99.43 and accrued interest, to yield 2.15 per cent. The 19½ year, three per cent. bonds will mature June 1, 1955, and will be sold at 98½, and accrued interest yielding approximately 3.08 per cent. The long term bonds will be callable at 100 and interest on or after June 1, 1950.

The Bank of Canada will handle the loans through agencies of all chartered banks and recognized dealers, and the distribution will be by allotment.

In making the announcement Finance Minister Dunning commented on the general financial situation as follows:

"These are times in which the financial responsibilities of a government are particularly onerous. To the maintenance of ordinary government services is now added the very heavy burden involved in meeting the problem of unemployment. At the same time we must all recognize that there are limits to the amount of debt which present and future generations of Canadians can be called upon to bear, and the government has no uncertain view as to the necessity of the early balancing of the budget and the orderly financing of its maturing and callable obligations.

While our problems are weighty I see none that cannot be solved by energy, co-operation and common sense. "I appeal to all those who are interested in the financial stability and welfare of our country to support the present issue. I have every confidence that the offering will receive from the Canadian public an immediate and favorable response."

World Wheat Supply

U.S. Bureau Of Agriculture Says

Stocks Much Lower

Washington.—A decrease of 240,000,000 bushels from the 1934-35 season in world supplies of wheat, excluding Russia and China, was reported by the U.S. bureau of agriculture economies.

The present world supply was reported to be 4,900,000,000 bushels, 500,000,000 bushels less than the average from 1928 to 1932.

The reduced supply was said to have resulted from smaller stocks in all major producing countries except Canada.

Buildings Shaken By Earthquake Shocks In Eastern Canada

Toronto.—An earthquake shock

Canada with a rumbling shock from the head of the Great Lakes to the Bay of Fundy. Buildings were shaken, dishes knocked from tables and thousands of persons frightened so badly they rushed into the streets during the tremor that lasted from 15 seconds in some areas to a minute or more in others.

Damage was almost negligible in Canada, but a house caved in at Syracuse, N.Y., and street signs fell to the street in Pittsburgh, N.Y.

Two seismographic instruments at the Dominion observatory in Ottawa were broken by the "quake's" severity. Telephone communication in central Ottawa was disconnected for a time after the shocks felt about 1:05.

Frank O'Donnell of the Dominion meteorological bureau at Toronto said the tremors were the worst ever felt there.

"It must be a very severe 'quake somewhere," he said, adding that just north of the St. Lawrence river there is a fault in the earth structure.

There were two distinct shocks in the east. The first lasted two seconds.

In some places and was followed by a briefer, less pronounced tremor.

Toronto, Montreal, Saint John, N.B., Detroit, Cleveland, Washington, Boston, Albany and Fairmont in West Virginia, all reported that buildings were swayed by the tremor. Telephone lines were out in a number of centres in upper New York state.

The "quakes" lasted about five seconds in Toronto, causing pictures to shimmy. At Montreal it was of sufficient strength to move furniture.

Slight damage was caused at Simcoe, Ont., where brick walls in several buildings cracked. Reports from Windsor indicated the shock there was slight.

It was believed the centre of the shock was in the United States, probably in New York state.

Frightened citizens deigned the newspaper offices with calls. In nearly every part of eastern Canada the "quake" was strong enough to awaken the slumbering.

Despite slippery streets in Toronto, the most violent "quake" felt there in eight years failed to cause any traffic accidents.

Supreme Court Will Decide On Validity Of Legislation

Ottawa.—Submission of legislation to the supreme court of Canada, as announced earlier by Prime Minister King, will be much wider in scope than previously expected, it was learned here.

In addition to the measures respecting working hours and wages arising from draft conventions of the International labor office, the reference will also include employment and social insurance, legislation adopted to carry out the recommendations of the royal commission on price spreads and mass buying and the Marketing Act.

Hon. Ernest Lapointe, minister of justice, stated the reference will ask "certain questions which have been raised regarding the validity" of the following acts:

The Employment and Social Insurance Act, the Dominion Trade and Industry Act, the Natural Products Marketing Act (1934) and amendments; an act to amend the criminal

code, section nine, the Minimum Wages Act, the Limitation of Hours of Work Act and the Weekly Day of Rest in Industrial Undertakings Act.

The reference to the supreme court will be made immediately, Mr. Lapointe said, and the government hoped an answer might be ready for consideration at the Dominion-provincial conference to be held later in November or early in December.

The Employment and Social Insurance Act has already gone into operation with a commission set up under the chairmanship of Hon. G. S. Harrington, former premier of Nova Scotia. Work has not yet proceeded to the stage where employers and employees would make contributions to the insurance fund.

The tariff board, of which George Sedgewick is chairman, was constituted the commission to administer the Dominion Trade and Industry Act in its initial stages and no additional staff was appointed.

NOTES AND COMMENTS

THERE is always something doing, though the common saying may be "Nothin' doin' to-day." A newspaper editor once stated to a correspondent who had fallen down on sending in news that wherever there are people, there is (or are) news. It may not be important news; in fact what we in Coleman might regard as news of interest would not cause the slightest ripple in the columns of a daily newspaper. But we in Coleman are more closely interested in what our neighbors or townspeople are doing than we are in the Italo-Ethiopia war. Just ask yourself if it isn't true?

WE WERE reminded of this by a remark from a subscriber who during his holidays had The Journal forwarded to him. On his return, he was asked if he received it regularly, and he replied with a smile: "Why, yes! And it was so interesting to get the news while away that I would read it through, even the advertisements, to find what everyone in Coleman was doing."

MANY MAY have known it—others may have not. Last week was National Cheese Week, the object being to encourage the use of cheese as a food. It was sponsored by the Federal government. Talking of cheese reminds one of a "pub" in a country district in England, called the "Cheese and Rat." The poster in the post-office immediately recalled it to mind. And by the way, that same poster caused more comment than any other notice on the board. People stopped to read, some gave a loud guffaw, and said "What Next?" Others looked at it silently, snickered, and went their way, with the trace of a supercilious smile. Others just looked, and so lacked expression that you couldn't fasten anything on them as to their approval, disapproval or anything else. They were just plain "nootral." However, the moral is, cheese got some valuable publicity, whether you like it or not.

WHY DO audiences in most places when trying to sing "O Canada" at the opening of a program or meeting and "God Save the King" at the close, appear to lose their voices. The volume of sound isn't sufficient to make one man-sized whoop. Is it because they are shy, modest about their singing ability or do not know the words? Possibly a combination of the three. In many cases they seem so self-conscious about it that one "almost feels they are afraid to open their mouths. At a recent political meeting of the opposite party to which we belonged, when it came to closing the meeting with the national anthem, we sang it almost as a solo, because the rest were afraid to raise their lyric voices above a movement of the lips. There is nothing more inspiring that "O Canada" when sung with vigor and enthusiasm, not a slow funeral march; and who has not thrilled as army bands thunder out in majestic tones—"God Save the King." If we're proud of our country, of our Empire, for goodness sake let it be shown in more enthusiasm when the occasion offers. Surely we have a right to throw out our chests and sing of the land "Where Pines and Maples Grow."

SPEAKING of national anthems, recalls an interesting incident when attending an amateur show in a town in North Dakota. The owner of the theatre, asked by the pianist with the visiting company which would be the most appropriate thing to play at the close of the performance, such as "My Country 'Tis of Thee" or "The Star Spangled Banner," replied: "Don't you worry son about any closing anthem, for the crowd will be hittin' for the door before the curtain pole reaches the stage." He was right, too! We have seen audiences in Canada make a bolt for the door at the close of a program, and have always regarded it as being very crude and discourteous, especially if the curtain raises and the assembled company on the stage leads the singing.

THE value of a citizen in any community is best judged by his record—what he has done as a school board trustee, a councillor or a mayor, or a member of any lesser organization. Municipal service calls for sacrifice, if the duties are to be seriously attended to. Figure-heads and non-entities are of no value on the town's governing bodies. Usually a property owner is more sane in his voting when it affects his property interests than at any other time.

"VILE UNPRINTABLE LANGUAGE."—When word came over the air a few days ago that Judge Landis had fined four ball players for using "vile unprintable language," a listening youth of fifteen said, "good, I'm glad of it." Many people can have their patience so tried that they will make slips in speech habits. But there is no reason for condoning vile language. One man says he was cured of mixing the name of deity in his cheap talk by a simple trick of a friend. Both he and the friend were working at the printing trade—an occupation very trying on the nerves, at times. The friend set up a card as follows and laid them around where they could be frequently seen. "The

JONES WINS OVER GATZKE

(Continued from Page 1)
round as Dempsey connected with a hard right.

Both fighters fought a free slug-fight in the second till Garrett began to tire. Both men fell to the floor as a result of their exertions. Garrett scored with several hard rights, Dempsey retaliating with hard rights and lefts. Garrett was groggy as the round ended.

Garrett seemed fresh as he started the third round but soon tired and Dempsey shot a right which connected with Garrett's chin, knocking him to the floor and out for the count.

A good preliminary was fought between Storey of Drumheller and Pep Luini of Hillcrest. Luini was in much the better condition and after the first round had the fight sewed up whenever he pleased. In the third Storey was hanging on helplessly after stopping a hard right and left. Luini refused to mete out further punishment and the bout was stopped.

Two local youngsters, Lloyd and Garrett, opened the night's card with a hectic battle which saw both boys score a knock down and earn a draw.

E. D'Appollonia and Dan Daly followed on the second bout and put the crowd in fine fettle as they mixed it freely and earned the hearty applause of the crowd as the referee called it a draw.

At the start of the main event a challenge was read out at the ring-side from Young Tunney of Medicine Hat. Tommy McCoy will in all likelihood be matched against Baby Dempsey who made a great impression with the fans on his performance of Monday evening.

SMALL BABY MAKES WASHER NECESSARY

"I have to wash every day for the baby and it makes such a lot of work," says the mother of one of Canada's youngest citizens. "And, of course, there is all the family washing besides."

"I would not think of sending any of the baby's things out to be done. It would not be safe, do you think? An electric washer is the only way. It is something I will always need and I might as well get it now when the family is small. My friends have BEATTYs, so I got a BEATTY too."

EVERY FAMILY BUDGET SHOULD INCLUDE A WASHER

In a recent court, a prominent judge said that a married man with a family should include in his budget, enough to take care of the monthly payment of an electric washer. A washing machine, in addition to being a necessary piece of family equipment, is an asset to any home.

THEY ARE STARTING RIGHT

"We are going to get married next week," the young lady told us. "We haven't a lot of money to spend, but a washing machine is one of the first things on our list because the washing has got to be done, and I am not going to rub the skin off my fingers doing it on a board! Mother has a BEATTY and we are going to start right by getting one too. Clothes have got to be washed. The electric washer is certainly the best way to wash them."

side from Young Tunney of Medicine Hat. Tommy McCoy will in all likelihood be matched with

LAUNDRY DOES PART BUT THERE IS STILL PLenty TO DO AT HOME

"I could not send everything to the laundry. The lingerie and the children's things had to be done at home. I simply could not afford to send everything out to be washed. I was always having to wash over half the clothes at home which was a big job with no machine to do it with, so I decided we needed a washer. I wish now that I had got one long ago, because it does a wonderful job, and there is no cost."

SOFT AND WHITE... OR?

"A friend of mine paid me quite a compliment the other day. She said my hands looked ten years younger than hers. I felt well repaid for the care I have always taken to protect my hands to keep them white and smooth. In my opinion, the surest way to have red and gnarled looking hands is to soak them in hot, soapy water on washdays. I never do this. I use a new BEATTY washer equipped with a built-in metal basket with which I can raise the clothes to the top of the water when they are washed. My hands scarcely touch the water at all."

NEVER COULD GET HER CLOTHES A GOOD COLOUR

"Mother had an awful time getting the clothes clean. All she had was an old 'smelly' wood tub. It took an hour or more to get Dad's overalls and underwear looking anything like clean. Last fall mother got a BEATTY and she could hardly believe it when she found how quickly it washed the heaviest and dirtiest garments, perfectly. Of course, with the BEATTY you can use hotter water and the washing action is many times more vigorous than the old hand method. "Even the neighbours noticed the difference. The other day one of them said, 'How do you get your clothes such a good colour? Do you use anything?' One of the women who asked this question has another electric washer but she still has to rub and boil the clothes and use bleaching solutions. She should trade in her old washer and get a BEATTY."

SENSATIONAL SAVING ON NEW BEATTY PORCELAIN ENAMEL WASHERS!

This announcement will save you money if you act on it quickly and take advantage of the price advertised. The saving is sensational, because the washer is brand new, guaranteed—a regular Beatty Model with the well known Beatty fast-washing action. Here it is! The popular product of the oldest and largest and strongest washer company in the British Empire! Backed up by our own local factory branch, where repairs are stocked and our own service men and mechanics are available. The saving is sensational, not only because of what you see in the machine, but because of WHAT THERE IS BEHIND IT!

\$99 VALUE **\$84.50**
FOR

Do not be deceived by enamel and varnish. You cannot judge a washing machine by its looks alone. Will it wash clean? Will it get the clothes a good colour? Will it wash without rubbing or bleaching or boiling? Will it stand up and give you a lifetime of satisfaction?

Clothes Washed in a Beatty Last Longer

For the saving of clothes alone, choose the Beatty. By actual test with other washers the Beatty is far easier on the clothes. Why? Because the Beatty takes a positive hold of the clothes and carries them backwards and forwards through the hot water without rubbing or scuffing them. Its washing action is the fastest of any electric washer. The faster clothes are washed the less wear there is on them.

More and more, women are turning to the Beatty to solve their washing problem. There are Beatty users everywhere, on every street and in every village, town and city of Canada—over 300,000 of them.

GET YOUR BEATTY NOW!

RUN DOWN

Are you allowing your health to be ruined? Why not take the advice of prominent physicians and save your health with an electric washer?

"Our doctor told mother that she was 'run down' because she worked too hard—that the washing took too much out of her. Dad always wanted mother to get a washer but she thought we could not afford it. My brother and I have decided to help them with the payments and now mother can have one."

The children often help the old people to get an electric washer. Why shouldn't they, especially if they are working? Their clothes add to the work of mother on wash day. A father often buys an electric washer as a wedding present for the young married daughter. He realizes what a help an electric washer is to a young woman just starting to keep house. He knows how hard his wife had to work in the early days when she had to wash by hand.

NEW BEATTY THREE TIMES AS FAST AS OLD MACHINE

"Faster, cleaner, better—white things come out a better colour and coloured things are brighter. It is easier on clothes and easier to operate. That's what I find with the new BEATTY Washer."

These are the words of many of our latest customers—people who have used old wood tub machines, dolly machines, machines with cylinder and rocking tube, machines with cups and all sorts of peculiar devices. The BEATTY will do in six minutes better work than any of these old machines did in half an hour.

WHAT IS HEALTH WORTH?

Here's what a young mother told us recently, "I used to think it was cheaper to wash the clothes over the board but I found that I was not only wearing out myself and the clothes but paying costly doctor bills as well. I decided it was much cheaper to get an electric washer. It saves hours of hard work, the clothes last twice as long, and I have no doctor bills or laundry bills to pay."

RUN DOWN LIFTING- PUSHING- PULLING- A HEAVY HAND IRON!

WASH AND IRON the same day—you can do it easily by the aid of this new ironing attachment. It goes right on the washer in the same place as the wringer. This attachment does the ironing as speedily and well as the machine does the washing, saves every bit as much time and effort. Just feed the clothes into it. The heavy flat work such as sheets, tablecloths and the towels, pillow cases, doilies, which comprise about 80 per cent. of the ironing, can be put through much faster and much easier with a Beatty Ironing Attachment. The material rolls through while you watch the machine do all the hard work. It's years ahead of the old back-breaking hand method.

With a little practice the kiddies' things, curtain frills, shirts—in fact anything that you can do with a hand iron can also be done with the Beatty ironing attachment and done much faster.

You can do the ironing not only faster but better with the help of the ironing machine attachment, than most women can iron by hand. Better because there is more heat, more uniform heat and much more pressure. Heat and pressure make a better job, give your things a "professional looking" finish which is impossible to get by hand. You are proud of the clothes ironed on a Beatty.

Economical to run. Takes less heat than a hand iron because it is THREE times as fast and you do not have to leave the heat turned on long. One and a half hours will do an ironing that once took six or seven hours. What a boon for hot weather laundering. You can so easily keep everyone looking their best. Inquire about the Beatty now!

● A man does not expect his wife to carry the coal from the street to the cellar. Ironing by hand is not a bit easier. When you do a family ironing by hand you lift the equivalent of several tons of coal.

Interesting Program in Aid St. Paul's Church

Included Songs, Violin Solos, Dancing and Magic Wonders

Young people of the Pass towns gave a pleasing two hour entertainment in the community hall on Friday evening, in aid of St. Paul's United church. Mayor Pattinson presided.

Opening with "O Canada" the following items followed: Songs by Miss Gwen Brown, Freda Antrobus, Ismay Hadley, Pearl Knowles, a little tot whose song was particularly good for such a young child: vocal duet by Ismay Hadley and Lorraine Rippon; violin selections by Geo. Kerr, selections by Mr. W. H. Moser's string quartette of Hillcrest and Blairmore; dancing by Caroline Kuryluk, the "Sailors Hornpipe" and "A Gypsy Dance," accordion duet Albert Hovan and Joe Tapsy; ball room dancing by Miss Mary Kurukuk and Albert Hovan, readings by Mrs. Roy Taylor, poems of Pauline Johnson; yodelling songs with his own guitar accompaniment by Alex McInnis; and demonstrations of the magician's art by Mr. Albert Harrison, assisted by Miss Francis Cootick, in "Mademoiselle from Armentieres" and the Famous Four Ace Trick. Piano accompaniments for the singers were played by Miss May Powell and Miss Madeleine Char don.

Mayor Pattinson thanked all who had assisted in the program, and they were invited to the room of the church where refreshments were served.

LOCAL AND GENERAL

A renewal subscriber The Journal was pleased to hear from with a remittance for \$2.00 was Mrs. Mary Neil, of Kettle Valley, B. C., for many years a resident of Coleman, and whose son worked here in the mines. It will be remembered he died as the result of a mine accident. The Journal extends good wishes to Mrs. Neil, who likes to keep in touch with old acquaintances through the weekly visit of The Journal.

Below zero temperature curtailed the usual boisterous visits of children on Halloween. A few braved the cold, but their ramblings were not continued for any length of time, consequently the stocks of peanuts and apples which most people keep on hand for these young visitors were not so depleted as is usually the rule.

Coleman Journal CHRISTMAS EDITION

Friday, December 20th

GOODWILL advertising by merchants and other business men in the Beautifully Colored Christmas Edition will be the best way to send greetings to people in this district and to former Colemanites who still delight in reading of "what's doing" in the old home town.

Copy should be sent in well in advance and co-operation of advertisers will be appreciated.

Church of England Members

YOUR financial help is needed, to enable the services to be carried on. A serious deficit can be paid by a little help from those who heretofore have neglected their obligation to the church and its Sunday school work.

Contributions may be given to Frank H. Graham at the Post-office; H. T. Halliwell at The Journal office; or Mrs. George A. Brown, envelope secretary.

Regular giving of a small sum weekly will help your church from going into debt. Do not leave it to a few to carry on.

DO YOUR PART, TOO!

CHRISTMAS CARDS

Messrs. Lawson & Jones, of London, have sent us several dozen examples of their Christmas cards. All are beautifully designed and printed, and reach a very high level of artistic excellence. It is not often that one comes across productions of this type which are so uniformly good, which give such a wide range of choice, and which at the same time are so reasonable in price. The firm's series is particularly pleasing, and there is sure to be a big

demand for these cards during the coming weeks. 50 of these Christmas folders, with name printed thereon, with envelopes to match, \$2.50, plus tax.

A new confectionary opened this week in the former Huffman barber shop is that of Miss Annis Kinneer, whose opening announcement is advertised in this issue.

There is business today, but advertising must ask for it.

Local News

Born—To Mr. and Mrs. Robert Bell on Saturday, Nov. 1, a daughter.

Miss Annie Haman, stenographer in the law office of John L. Fawcett, Macleod, was a visitor at the home of her sister, Mrs. George Graham, last week.

Mr. and Mrs. F. Stevens of Wainwright were the guests of Mr. and Mrs. H. C. McBurney during the week. Mrs. G. Morris, of Edmonton, niece of Mrs. McBurney, is also staying with them for some time.

Mr. R. H. Melville, manager for Alberta of the Confederation Life Assurance Co., was a visitor in the Pass towns this week. He intends appointing a new representative for this area, in place of Ernest F. Gare, who recently went to Trochu.

Dr. Wright, Dr. Giff and Mr. McNeil, members of the Workmen's Compensation Board, were here last week on a regular visit to review various applications. Dr. Wright is a recent appointee of Premier Aberhart, replacing Chairman of the Board Ross.

The saying, "Just one touch of nature makes the whole world kin" was demonstrated in the showing of the pictures of the Dinnie quintuplets at the Palace. There was no artificiality about their actions as they played in their bath and took their food and played in the open air. These pictures enable thousands to see the babies almost as well as if they visited them at Callander, Ont., their birthplace.

The few degrees rise in temperature on Friday afternoon last after five days of sub zero weather, was heartily welcomed, especially by those who had been out little during the cold spell. It was the coldest on record for many years in most places in Western Canada, for so early in the winter season. The Pacific coast suffered very cold weather and considerable damage to fruits and vegetables was suffered the Fraser Valley.

UNITED CHURCH

Next Sunday morning the minister will preach on the subject: "A Plea For Goodwill." As Remembrance Day falls on Monday next the hymns and messages will be in keeping with the purpose of this day.

The Sunday school meets at 12:15 p.m. We would like to see a larger attendance of children. Will parents co-operate in this regard?

In the evening the sermon will be a brief review of Beverly Nichols' Book, "Cry Havoc!" It has been said of this book: "This is a terrible, a literally frightful book." It teaches a poignant lesson on the horror and futility of war. Returned men are cordially invited to come.

"Let us forsake not the assembling of ourselves together."—Rev. Roy Taylor, B. A., B. D., Minister.

Do You Ever Wonder

Whether the "Pain" Remedy You Use is SAFE?

Ask Your Doctor and Find Out

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

THE person to ask whether the preparation you or your family are taking for the relief of headaches is SAFE, to use regularly is your family doctor. Ask him particularly about "ASPIRIN".

He will tell you that before the discovery of "Aspirin" most "pain" remedies were advised against by physicians as bad for the stomach and, often, for the heart. Which is food for thought if you seek quick, safe relief.

Scientists rate "Aspirin" among the latest methods yet discovered for the relief of headaches and the pains of rheumatism, neuritis and neuralgia. And the experience of millions of users has proved it safe for the average person to use regularly. In your own interest remember this.

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trademark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

Demand and Get "ASPIRIN"

Toronto To Be Quiet
Toronto citizens have many ideas toward the elimination of noise that disturbs their sleep. Action proposed by citizens included rubber shoes for milkmen, rubber baskets to carry milk bottles, rubberized wheels for street cars and a soft composition street car track.

India has a rural-uplift campaign.

SYNOPSIS

Nancy Nelson is a sub-deb, a gay, irresponsible girl of nineteen, with no care beyond the choice of her costume for her coming-out party. Suddenly, in the market crash, her indulgent father loses all he had, and his family is faced with the necessity of a simpler method of living. At this juncture a letter is received from an eccentric relative in Colorado, who offers the girl a home on what seems to be impossible conditions.

After much consideration Cousin Columbine's offer is accepted, and Nancy and Jack arrive at Pine Ridge. Nancy retires one afternoon to climb to the top of a hill so as to obtain a view of the surrounding landscape and miss the path Aurora Tubbs had told her to follow. A truck comes along the road, driven by Matthew Adams, and she asks him which way to go. They ascend the hill, look around, and then go on to Cousin Columbine's. There Mark Adam tells Nancy that his brother Luke has broken his leg, and that Jack Nelson has been hired to help out while Luke's leg gets better. With Jack away, Nancy finds that she is lonesome and having no books to read, the idea of starting a public library at Pine Ridge seems a good one, and Nancy writes home to get her parents to send all the books they could spare and all they could induce others to let them have.

Nancy's parents and friends gave their liberal support to her request for books, and a sizeable box arrived in due course. Father Adam painted a sign for the library, and the Adam boys went to the shelves for the books and decorations to make the room look presentable.

Jack Nelson, Matthew Adams, and Nancy go to the prairie home of Matthews' uncle for the ride, and after Nancy and Jack leave for home, they are caught in a blizzard. Blinded by the swirling snow they collide with a bus full of school children, which was stalled across the road with its back wheels resting in a snow-filled gully. Their car being wrecked, Jack and Nancy stay with the children and do all they can to help. The next morning Jack sets out for help in the blizzard. He succeeds in finding help, and the party of children and Nancy are rescued. As a result of the exposure Nancy's feet are badly frozen and Jack is seriously ill with pneumonia, but both of them recover.

Now Go On With The Story

CHAPTER XII.—Continued

"The same, lady—or one branch of it anyhow; and after last night's rain the brooks and rivers will be full. You'll lose your mind over the road ahead, Nancy."

Mark was right. They followed a mountain stream bordered by giant firs and quaking aspens. The mountains were greener here. "More friendly," observed Nancy. "More like New England." And after a camp-fire lunch, with the historic Platte rippling peacefully at their feet, Cousin Columbine told them of the old tales which never failed to stir her audience.

"When we get home," Jack prophesied, watching his sister's rapid countenance with some amusement, "Nancy will bore all her friends with stories of pioneer days in Colorado, and storm the library for literature on the subject."

Father Adam looked up with a smile.

"In that case, I've a little book by a young Englishman which I'll present to you, Nancy. It's worth reading."

"You mean the fellow who landed at Vera Cruz, came up through Mexico and camped for a time at South Park—Bayou Salade, they called it then," asked Matthew. His father nodded, and went on: "I wish I could recall something one of our western poets wrote about him. It says:

"Alone through dusk he sat—
Safe in Bayou Salade above the Platte.
Safe from the rumbling dust of Santa Fe,
Cool in the woven spruce that curtained day.

John Adam paused, unable to remember further, and to the surprise of every one, Matthew, dreamy eyes watching the river, continued:

"While good Panchito browsed along the age
Beyond the picket line, it was an age
Of picket fires,
Bristled beaver-tail was good
Better than dripping gum-rubs—
cedar wood
Was set in flames (a cracking, crackling bright—
Alone, the boy, Bayou Salade,
and Night!"

There followed a moment of appreciative silence. Matt ceased speaking. Then Luke exclaimed with admiration: "Geel brother how'd you ever remember that?"—while Nancy, realizing that with this honest praise Matthew's self-consciousness had returned again, tactfully drew attention away from him by asking:

"Did any of those old, old Spanish expeditions come this way?"
"I couldn't say, my dear," responded Cousin Columbine. "They may possibly have passed near Pine Ridge, though that, I believe, has not been proved."

And no one dreamed that the girl who sat there, lost to the present in visions of other days, was to discover what looked astonishingly like the missing proof.

CHAPTER XIII.

It was on the fourth of July when Jack announced at breakfast that with their departure only two days away, the time had come to tackle the sagging gate posts.

"You can't put me off another hour," he insisted (with the old lady said: "Bother those posts, Jack. Don't waste your strength on 'em"). "I'm two pounds heavier than before the blizzard, Cousin Columbine, thanks to these lazy days and Aurora's cooking, and those posts give me the heebie-jeebies. If there were time I'd paint the house for you too."

"You may have that to look forward to when you come again!" she responded, endeavoring to speak briskly. "I hope your father will consider John Adams' offer of a job for the winter, Jack, and send you back to us. As for Nancy—I don't dare think how still the house will seem without her. I felt like a lost soul the days you stayed at Prairie Ranch."

For the visit to "Uncle Tom's" was over—three days that had softened the memory of those cruel, wind-swept plains, leaving instead a vision of flower-dappled prairie.

For it wasn't for this stack of newspapers and letters," Nancy confessed the day she stowed them in her trunk, "that whole ghastly experience would seem a dream."

"A nightmare, I'd call it," corrected Aurora. "Victor Tubbs says I lost ten pounds during that blizzard; and as for Miss Columbine, she'll never be the same woman again. It's my opinion that if Eve and John Adam hadn't took their lives in their hands and drove down here to keep her company, she'd have lost her mind."

"And it's my opinion," retorted Miss Columbine, who had come in unobserved, "that you were in a lot more danger of losing yours! Don't talk nonsense, Aurora Tubbs."

Nancy laughed at the time, even though something told her that in a measure Aurora was right. One pays toll for hours like those, and Cousin Columbine had not escaped. The old lady was a shade less brisk, less energetic; and Nancy hated to think how lonely she would be when left with only Aurora Tubbs for company.

"If I were twins, or could be in two places at once," she confided in General Grant as she undressed one night, "it would solve the difficulty. With the use of being a twin, I could go anywhere; if you're incapable of advising me, Ulysses S."

But if the General saw a solution of the problem, he kept it to himself; and the days passed with "Cousin Columbine looking a bit grumpy, as she thought no one noticed, and Matthew Adams losing his appetite to an extent that alarmed his troubled mother. And now tickets and reservations were ordered. Mary Taylor had promised (with Luke's consent) to watch over the Aladdin Library; and Nancy was conscious of a new sensation, something she described to herself as "a sinking feeling down inside," each time she caught a glimpse of the unasked question hovering mutely, hopelessly, in Matthew's expressive eyes.

Now is the Time For This Help in Preventing Colds

Formula Especially Designed to Aid Nature's Defenses in Nose and Upper Throat, Where Most Colds Start.

PART OF COLD-CONTROL PLAN

Don't wait for a cold to develop—get you down. After any unusual exposure, heat that first warning nasal irritation or sneeze—apply a few drops of Vicks Vapo-rinol up each nostril. Used in time, Vapo-rinol helps to avoid many colds. Vapo-rinol is especially designed to aid and gently stimulate the functions provided by Nature—in the nose—to prevent colds and to throw off head colds in the early stages. Where irritation has led to a clogged-up nose (a stuffy head cold or nasal catarrh) Vapo-rinol spreads through the nasal passages—reduces swollen membranes—clears clogging mucus—brings comforting relief.

For Fever and Shorter Colds

Note for your family: Vicks has developed, especially for home use, a practical Plan for Better Control of Colds. This commonsense rule to fever and shorter colds has been clinically tested by practicing physicians and further proved in everyday home use by millions. Full details of Vicks Plan come in each Vapo-rinol package.

MODERN DESIGNS GIVE GREATER EFFICIENCY!

RIDE THE HIGHWAYS FOR TEN MINUTES behind the wheel of a 1935 streamline model and you'll marvel at the advances in motoring pleasure.

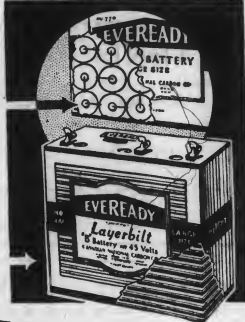

RIDE THE AIR WAVES FOR TEN MINUTES with an Eveready Layerbilt hooked to your radio receiver, and you'll enjoy the same delightful sensation of scientific achievement.

Space-wasting round cell construction has gone into the discard. Today, flat cells compactly built layer upon layer, bring you a modern power plant, packed with sustained energy and long life.

Study the comparison below, then make sure of gaining this new and greater measure of radio enjoyment.

Old-Fashioned Round Cells
Note the waste space and the multiplicity of delicate wires.

MODERN Layer Construction
Not an inch wasted—layer tightly packed on layer—the maximum of power and long life—the minimum of trouble.

EVEREADY LAYERBILT "B" BATTERY

CANADIAN NATIONAL CARBON CO. LIMITED, TORONTO
MONTREAL WINNIPEG VANCOUVER

So she was relieved when Jack mentioned the neglected gate posts. The task would occupy both time and thoughts till afternoon, when they were to have a farewell supper at the Adam ranch.

"Don't worry about Jack," she said to Cousin Columbine. "I'll help with the digging. Let's get to work before the sun's too hot."

The old posts, rotted at the bottom, were dislodged with little difficulty. (To Be Continued)

New Era in Plane Travel

Stratosphere Ships To Travel Above Clouds At Terrific Speeds

Designers of Britain's next air marvel, the stratosphere aeroplanes, hope that it will reach a height of at least 50,000 feet, and travel at speeds equal almost to the 340 miles an hour achieved in the last Schneider Trophy race.

These features are the official aims of the air ministry for the special aircraft being built by the Bristol Aeroplane Company at Bristol. Details of the machine's design are being kept secret, but the expected performances were made known recently.

This craft may be the forerunner of a new era in long-distance travel. Although balloon ascents have been made to the stratosphere, no aeroplane has carried out any satisfactory tests there. But it is believed that once a machine and engine can be built to reach the necessary height—eight or nine miles up—remarkable speeds will be achieved.

Storms are unknown in the stratosphere and balloonsists who have been there report that they never sighted a cloud.
Not only must the engine be super-charged, but the hermetically sealed pilot's cabin must be kept at sufficiently high air pressure to enable a man to live in the rarefied atmosphere.

According to the latest estimates there were 57,700,000 sheep in North America in 1934. Canada had 3,400,000; the United States 52,200,000, and Newfoundland 100,000. In 1933, the number of sheep in the world was estimated at 688,900,000. 2123

Anticipating Death

Right Of Person To Take His Own Life In Certain Circumstances

The right of a person to take his own life, in certain circumstances, would be legalized under a bill prepared by Lord Moynehan, a past president of the Royal College of Surgeons, it was reported in London. Suicide is now a "crime" in English law. Certain members of the House of Lords are said to regard Lord Moynehan's project favorably.

Under Lord Moynehan's plan, a person afflicted with a painful and incurable disease could request his attending physician for the privilege of "anticipating death" by euthanasia, or painless killing, to be performed under the direction of the physician.

Such a request would have to be accompanied by a sworn statement to the effect that the doomed person's affairs were in order.

Accidental Discovery

Explosive Discovered Valuable Because Of Cheap Chemical Ingredients

Discovery of a new explosive of "high shattering power" in the remnants of a laboratory experiment which "went wrong" was announced by Professor A. T. Bowden, head of the College of the Pacific Chemistry Department at Stockton, Calif. The explosive, Professor Bowden said, might prove of considerable commercial value because of its cheap chemical ingredients. Last year, he said, a minor classroom explosion resulted from an experiment which had been performed successfully hundreds of times before. Seeking conditions causing the blast, Professor Bowden and a group of students made the discovery.

Valuable Bowler Hat

Impressed by the bowler hats worn by distinguished Englishmen, the King of Cambodia, in French Indo-China, has ordered a state bowler. Trimmed with jewels with a magnificent clasp of brilliants worn as a cockade the crown bowler is preserved for exceptional occasions. It is stated that the hat has cost £4,000.

Mrs. Peck—Now, Henry, what are you thinking about? I can always tell when you have some thought that you are trying to conceal from me. Out with it!

Henry—I was just wondering what the Mormons could see in polygamy.

Be particular—buy your flour by name. Purty Flour has enjoyed your confidence for thirty years. Always uniform quality—milled from the world's best wheat—ensures complete satisfaction for every kind of baking.

MISS ANNIE KINNEAR

when the family also Father Mc-
Cormick, and a nephew and wife,
Mr. and Mrs. Wilfred Plante,
quietly gathered together to an old-
fashioned dinner.

The table was very prettily deco-
rated for the occasion with touches
of gold, the important part being
the lovely golden and bronze baby
"mums," a gift to the bride and
groom from the Catholic Women's
League. Marie Desjardins and
Gertrude (a God child of the bride
and groom's) and Mary Downey as
sisters at the table wearing pretty
astors and caps in gold color.

All Saturday evening and Sun-
day old friends and neighbors paid
surprise calls to congratulate the
couple and Sunday evening the sur-
prise was a presentation of a purse
and many other special gifts and
flowers. Speeches and toasts were
made by Mayor Ostrander and Mr.
Peter Downey, and at the close of 12 children, five of whom have

the evening all gathered around Mr.
McCormick and Mrs. Plante, and family and
sang the old favorite songs, "Auld
Lang Syne," and "He's a Jolly
Good Fellow."

Mr. and Mrs. Plante have lived in
Alberta 41 years, 26 of these being
spent in Gleichen. They have had

died Those living are: Joe in
Coleman; Ethel (Mrs. Seale) in
Oakland, California; Charlie or
'Yankee' as he is best known, in
Seattle, Wash; Thomas in Peace
River, Frank in Strathmore and
Clara and John who live at home.
There are 11 grandchildren living
and one dead.
